

GENIUS ERP EXTENDED PROFILE

OVERVIEW

Genius Solutions is a complete enterprise resource planning (ERP) solution built for small to mid-sized custom manufacturers handling make-to-order, engineer-to-order, custom-to-order and assemble-to-order manufacturing.

Genius ERP provides custom manufacturers with the tools they need to reduce costs, increase productivity, and improve the performance of production sites, including CRM, inventory management, product engineering, job costing, account management, scheduling, production planning, and accounting. Automate time-consuming steps, estimate with greater accuracy, reduce bottlenecks on the shop floor, and connect historical data to upcoming runs to optimize production.

Genius ERP was designed specifically for custom manufacturers by industry experts. From design to delivery, Genius ERP helps manufacturers achieve increased throughput without hiring new staff or expanding operations. Manufacturers can handle more jobs and take on new customers while avoiding bottlenecks, stalled projects, and supply overstock.

Genius ERP: one system that helps simplify complex manufacturing.
