

# NEXSYS SYSPRO

# EXTENDED PROFILE

## OVERVIEW

NexSys has 40+ years' experience of delivering innovative ERP+ solutions to manufacturers and distributors throughout the UK as an elite partner of SYSPRO. NexSys technologies provide organisations maximum visibility over business-critical information, enabling decisions to be made based on accurate, reliable insight. The company's mission is to work collaboratively with customers to provide solutions that enable agility, innovation and competitive edge.

While SYSPRO ERP sits at the heart of the NexSys portfolio, the company offers complementary technologies which deliver complete technology solutions, encompassing modern industry needs. This includes the company's DataSwitch product, (an integration and automation powerhouse), Equator (People Management System built for Manufacturers), MTD (HMRC approved for UK VAT filing) and Orchard (a Warehouse Management Solution). NexSys is also proud to be an exclusive reseller of TransLution in the UK providing robust mobility solutions. These complementary solutions give added value to its customers and provides them with the essential tools for a 360 degree view of their organisations.

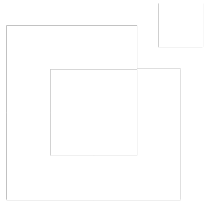

As a K3 company, NexSys benefits from the strength and security of a global organisation and works closely with its sister businesses to deliver fully integrated solutions, which aid businesses across the supply chain. At the heart of its operations is a dedicated customer support team, project managers, consultants, developers and trainers, who work closely with customers to help them realise maximum ROI from their technology investment. NexSys has a rich heritage of delivering technology transformation projects.

K3 Syspro ERP can be customized and integrated alongside other software such as Microsoft and Oracle products and all dashboards and BI can be integrated with existing systems.

## FEATURE OVERVIEW

K3 Syspro ERP can also be integrated with other K3 BTG products, such as management information and planning tools.

Companies using K3 Syspro ERP include global designer and manufacturer of communication systems and navigation antennas, Cobham Antennas, Fiddes Payne, a UK company specializing in the production of baking, spices, and food items and Pulse Power and Measurement Ltd, a UK company producing fiber optic devices and measurement machines.

## SOFTWARE SCREENSHOTS

The screenshot displays the Syspro software interface, specifically the Document Management module. The top menu bar includes Home, Setup, Import, Query, and Administration. The main window is titled "Document Management" and shows a grid of document thumbnails, each labeled "Crystal Reports...". A sidebar on the left contains navigation links like "Welcome to Click-to-View", "Requirements Planning", "With Inspo", and "Load Planning".

On the right, a "Statement" report is displayed for "k3syspro". The report includes a header with the company name and logo. Below the header, there are two sections: "Address" and "Details". The "Address" section lists the company name, address, and phone number. The "Details" section lists the company name, address, and phone number.

The report also includes a table with columns for "Statement Date", "Customer Name", "Account No", "Currency", "Credit Limit", and "Status". The table contains one row of data for the statement date of 27/12/15.

At the bottom of the report, there is a summary table with columns for "Statement Date", "Customer Name", "Account No", "Currency", "Credit Limit", and "Status". The table contains one row of data for the statement date of 27/12/15.
