

S2K MOBILE WAREHOUSE EXTENDED PROFILE

OVERVIEW

VAI's S2K Mobile Warehouse applications are designed to make transaction processing in your warehouse lighter, easier, and faster. By leveraging the enhanced touch screen display on the mobile device, data can be presented in a clear, concise, and easy-to-read format that reduces training time and speeds up operations. These applications can be deployed in a single location warehouse, multi-location warehouse, and are also perfect for small stockroom management. More than ever, warehouse management systems are critical to effectively manage your supply chain and achieve peak performance.

By implementing the latest WMS software technologies in your warehouse, you can significantly improve warehouse operations, employee productivity, and customer satisfaction. VAI's S2K Mobile Warehouse application will allow you to monitor warehouse activities in real-time, minimizing entry errors, and help you measure the efficiency of your warehouse employees. This powerful warehouse management system provides world class features for inventory receiving, movement and replenishments, product put-aways, warehouse fulfillments, warehouse scheduling, warehouse control systems, order picking, shipment verification, cycle counting, and much more.
